SUMMARY

An Innovative Software Developer with a strong background in feature design and user interface development. Committed to employing best technology practices and innovative methods to create exceptional software. Demonstrated proficiency in designing, debugging, and deploying software for client and server applications. Exhibits a customer-centric focus and possesses excellent project management skills. Proven track record of successfully meeting deadlines and effectively handling interruptions.

EXPERIENCE

Web Developer

Malopan Communications   **February 2024 – Present, Montreal, Canada**

· Successfully managed and developed multiple projects simultaneously, demonstrating strong organizational and multitasking abilities.
· Designed and implemented responsive landing pages, complete websites, and interactive dashboards using Next.js, ensuring high performance and scalability.
· Collaborated closely with cross-functional teams, including designers, backend developers, and project managers, to deliver high-quality web applications that meet client requirements.
· Applied best practices in coding, testing, and deployment to maintain code quality and reduce technical debt.
· Regularly conducted code reviews and provided constructive feedback to improve team productivity and code standards.

Software Developer

Buysell   **December 2023 – February 2024, Blida, Algeria**

· Implemented software changes and modifications according to testing results and requests.
· Tested new features and updated code to resolve bugs.
· Completed software development projects within budget and contract parameters.

Software Developer

Dzbracket   **Jan 2020 – Dec 2022, Algeria**

· Coded backend services using Nest.js/Prisma/node.js.
· Collaborated with DevOps engineers to verify code is planned and deployed to production environments with minimum disruption to end users.
· Built reusable code to utilize for other projects and to minimize costs.
· Worked with different testing tools and frameworks, content management systems and cross-functional teams to smoothly complete projects.
· Collaborated with designers to implement concept and design of website.
· Building UI element using SCSS and React.
· Building React native mobile apps.
· Building desktop apps using Electron.js, Tauri and JavaFX.
· Demonstrated expertise in HTML5, CSS3, object-orientated JavaScript and large JavaScript applications.
· Git expertise.
· Experience with Firebase services, such as Realtime Database, Cloud Firestore, Cloud Storage.

EDUCATION

Master of Science : Network Engineering

University of Saad Dahleb · Blida · Jan 2022
· Dissertation in 'Intranet role-based medical practices management system'

Bachelor of Science : Computer Science

University of Saad Dahleb · Blida · Jan 2020
· Dissertation in 'Storing and printing medical prescription'

SKILLS

Engineering standards, API design

HTML/CSS/SCSS/Tailwind, Front-end framework: Next.js, React.js

Back-end framework: Node.js, Nest.js, Prisma, TypeORM

Desktop development framework: Electron.js, Tauri, javaFX

Git expertise, Firebase services: Realtime Database, Cloud Firestore, Cloud Storage
